

our 'added value'

Whatever you need moved,

a package, a pallet,
or a house or office full,

Stevens Assured Services will make light work of it

We're not just a courier company, and we're not just a removals firm. **We do it all.**
More than that, we bring some extra 'added value' to the table.

When working with Stevens Assured Services, you naturally get your goods moved
from A to B, safely and securely. **But you also get:**

- A family run business where quality customer service comes first
- Two decades of experience in logistics across-the-board: courier and freight services and domestic and commercial removals
- A reputation for reliability, dependability and care (and a folder that we're very proud of, full of testimonials from satisfied customers)
- A fleet of owned and carefully maintained vehicles
- Transportation of every size from small vans to large articulated trucks enabling your goods to be transported safely and securely
- Our philosophy of 'going the extra mile' to deliver complete customer satisfaction
- A customer base full of businesses and private individuals who return to us time and again, because of our professional and friendly approach and our careful handling of their valued property

Whatever you need moved, a package, a pallet, or a house or office full,
Stevens Assured Services will make light work of it.
