

from wherever you are
to wherever you're going
we can move you

Moving house can be a challenging time - there's so much to do and so much to remember. A few choose a do-it-yourself approach, sourcing a rental van and relying on the goodwill of friends and family for a day of heavy manual labour. More today recognise the value of engaging a reliable professional removals firm - like Stevens Assured Services.

Our experienced teams are always cheerful, friendly, helpful and sensitive, in what can sometimes be a stressful situation. More than that, they are accustomed to treating personal possessions and home contents with the care and consideration they deserve.

At Stevens Assured Services, our aim is to make your moving day a happy experience, by taking expert professional care of your personal belongings as you move.

Our specialist removals service for domestic customers includes:

- We visit your home to assess your requirements and discuss any specific needs and concerns
- If you wish to do your own packing, we provide all packing materials in advance of move date - cartons, bubble-wrap, paper, etc
- On-the-day we provide appropriate transportation and experienced and trustworthy removals specialists who will carefully pack and move your property to your new home
- We can unpack for you, or leave you to unpack at your leisure and collect packing materials at a later date
- Your move is fully insured, to cover every eventuality

clean as a New Pin!

With the best of intentions, it can be hard to find time on a busy removal day to clean the home you're leaving thoroughly, in preparation for its new occupants.

Similarly, we've seen people become dismayed by the state in which their new home has been left for them by outgoing residents whose hearts are already elsewhere.

Our on-the-day cleaning service can take care of the job at both ends. We will ensure your old home is left clean and tidy, and we'll prepare your new home for your arrival, with extra special attention paid to kitchens and bathrooms - those areas where cleanliness and hygiene is so important.
